

LDT

### LDT

The LDT tread is primarily intended for rigid dump trucks. However, we have discovered that it can also be effective in certain L-4 applications.

**Fitments :**

Rigid Dump Trucks, Graders, Loaders

**Code TRA : E-4**

### BENEFITS AND FEATURES

- Excellent traction on soft ground and helps prevent oversteering.
- Tread design allows minimal heat buildup.
- Tested to deliver a significantly lower cost per hour than major brand tires.
- Application examples: Open-Pit Mines, Quarries, Construction.

WIDTHS	TREAD DEPTH
