

LSNOW

LSNOW

The LSNOW tread is a non-directional tread offering unmatched traction in snow. This 4-season tread will provide a service life comparable to major brand tires.

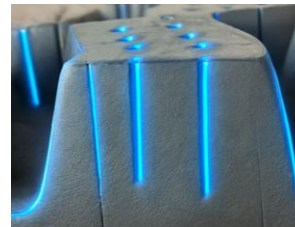

Fitments :

Loaders, Graders, Agricultural Tractors, Backhoes, Cranes, Forklifts, etc.

Code TRA : L-2, G-2

BENEFITS AND FEATURES :

- Excellent traction on snow and ice, which reduces operating costs by preventing oversteering.
- Not suitable for crushed rock larger than $\frac{3}{4}$ ".
- The rubber compound allows 4-season use and excellent durability.
- Tested to provide a lifespan equivalent to major brand tires.
- The sipes are designed to go to the bottom of each block, giving you traction throughout the entire life of the tire.

WIDTHS	TREAD DEPTH
	<u>/32"</u>
14	35
17.5	35
20.5	38
23.5	40
26.5 et 29.5	42
